

EUROPEAN TECHNOLOGY SUMMIT

Prof. dr. Patrick van Eecke

Partner
DLA Piper

Prof. dr. Patrick Van Eecke is an International Partner in DLA Piper's Brussels office and global co-chair of DLA Piper's Data Protection, Privacy and Security practice. He has over 20 years of international legal experience in the technology, media and telecommunications sectors. He focuses on privacy and data protection issues and advises on the legal impact of big data, cloud computing and Internet of Things.

Patrick assists clients on a wide range of topics on a national or multi-jurisdictional basis, including creating in-house data-protection policies, advising on law-compliant communications and the transfer of personal data, drafting contracts and assessing privacy-enhancing technologies. He advises on the data-protection aspects of database sales, notification of databases with the national data protection authorities, trans-border data flow agreements, binding corporate rules, adherence to the Safe Harbour Agreement, consent forms for personal data collection, data-protection codes for employees, data subject access requests, the definition of personal data for the purposes of transferring medical data to the United States, and website privacy policies.

Since 2014, he is appointed as the data protection officer of the University of Antwerp and is chairman of the university's Advisory Council on personal data protection.
