

EUROPEAN TECHNOLOGY SUMMIT

Rene Summer

Director Government and Industry Relations
LM Ericsson

 @ReneSummer

 /rene-summer-4a4114

Rene Summer is a Director of Government and Industry Relations at Ericsson Group primarily occupied with developing positive long term conditions in the global ICT sector, shaping Ericsson's policy thought leadership and develops constructive long term relationships with key policy makers.

He travels frequently to meet policy makers and regulators in LATAM, Europe, MEA and Asia. He has been appointed by the Government of Sweden as expert advisor for the Swedish Digitalisation Commission and has been advising several governments in informal capacities on ICT policies.

He is also a frequent public speaker on ICT policies.

Previously, he held various, business development, market analysis, pre-sale and strategic assignments across different Ericsson Business and Market Units, including Director Sales Strategies and Senior Market Analyst.

Before joining Ericsson, he was working as a consultant at large US based IT Company as well as Swedish Telecom Software SME.

He has board experience from Internet Industry Association of Australia and from being a member of different working groups of various industry associations and government appointed working groups.

He holds an MSc degree from Reading University UK in International Business and Finance with expertise in Business Strategy, Economic Policy and Financial Markets.
